Berlin, March 13.-The intervenion of Chancellor Adolf Hitler in one form or another in the crisibetween the Prague government and Slovak autonomists has been definitely decided upon, according to well informed circles in Berlin to-

denied that diplomatic pressure in the form of an eventual ultimatum might be exercized against Prague before the question of German mil-

This program, it was stated today, probably accounts for reports of German troop movements to the borders of Czechoslovakia but further military preparations were not admitted in Berlin.

### FAITH

We are talking about a greater New Castle and also trying to induce new industries to come here, which we hope can be accomplished. But, we feel that the citizens of New Castle should give a lot more attention to buying goods that are manufactured or sold in New Castle at the present time.

There is always a certain amount of the money spent in New Castle which is retained here, regardless of where the goods are made. There are a number of small manufacturers and jobbers in New Castle who are taxpayers, and it is the duty of the citizens of New Castle to get behind them, as they are already here, where-

as, new ones will have to be induced to locate here. Our Ad next week will go father into this matter.

The veteran Josephus Daniels, as our ambassador at Mexico City, doubtless had little difficulty in making this clear. Mexico has only about 70 planes and 170 pilots. She is said to be negotiating here and in Canada for more planes, and in the offing is a plan for the Canadian Car & Foundry Co. to build a plant to construct planes for Mexico and other nations of this hemisphere. It is Mexico's undoubted right to purchase planes abroad in any available market. But the use of stolen oil for the purpose would have looked queer to the Republics of the South, coming only a few months after the Pan-American Conference has no public debt, no income taxes at Lima. Particularly is this true as American pressure has yet brought and several other desirous features about no agreed basis of payment for the oil.

HERE'S THE ALVA II, windward runner high in the air, as Seger races faster than the wind on the starboard tack. "After a race it is sure swell to let up, light up a Camel," says Commodore Seger.

LOOK OUT! Ice-boat pilots need the skill and nerves of racing-car drivers. Like those in many other thrilling activities, ice-boat sailors find that Camels never jangle the nerves, Commodore Seger reports. And they're so mild, taste so good!

PRESENTING A FEW OF THE YOUNGER ROOKIES IN CAMP

Mickey, Dolph II, Douglas and Patsy Ruth

Gosh, but they certainly grab 'em young from the minor leagues these days. Mickey, at the extreme left, can't be more than 28 (months). He must be a catcher the way he stands there so backstoppy. Then you take Dolph II, second from left, a first baseman if we ever saw one. Douglas, the other gentleman in the picture, is a pitcher, judging from the keen eye. Patsy Ruth, at the right, could be an outfielder, but being a lady, she probably is

nothing more than a rooter. Getting back to the job at hand, we present these children of well-known ball players, left to right, Mickey Medwick, son of Joe Medwick of the Cardinals; Dolph Camilli II and Douglas, sons of Dolph Camilli, the Dodgers' infielder; Patsy Ruth Pressnell, daughter of Forrest Presnell, Dodgers' pitcher. # FROM ME TO YOU

Hearing a few comments about the last High School show "Hooray For Youth", we thought that maybe this suggestion should be told the school age of the audience who insist on talking during the performance, the patron and patroness are going to drop off if some sort of order is not considered. Not one but a lot of folks complained about this little thing. We agree it is small, but chatter by this group is rather annoying. Let's all think of others

Maybe you have heard and maybe you haven't but we hope that everyone will have heard by the right time. A circus is coming to town. "Barn 'em in and Bail 'em Out" . . . through the efforts of the folks of New Castle under the direction of the Y. M. C. A. The affair this year will be better than ever . . . some of the famous folks of New Castle stage life will take part . . . some that you and I have never thought of, will be there. Now if any of you folks have any old costumes that are put away and you would like to give them to a worthy cause . . . call the "Y" and they will be glad to pick them up. Look around and see if you can't find

something! Looking over the records of ten years ago we find several interesting facts . . . We find that Plaingrove leads the County in eggs. C. D. McNulty had fifty birds that we kept a record on and he found that the average for the month of February was 18.4 per bird. This record was turned in as official by the County Farm

To settle the question of pipe smokers . . . there are two kinds. There are some who smoke pipes for pleasure and some who smoke 'em because its cheaper. The former is a matured member of the latter class.

And ten years ago today Henry Firpo stopped Ted Esterbrook at Zanesville in the 4th round. As the story goes he was (Firpo) to fight Bobby Green at Cleveland on March 26th. How many can remember these fights.

And we call your attention to the classified ad page when you are thinking about cleaning up the house this spring. Save time and cash by reading this page daily.

# Don't Let Gas, Nerve Pressure Keep You Miserable

bappen. FIRST: Accumulated wastes awell up the bowels and press on nerves in the digestive tract. This nerve pressure causes headaches, a dull, lazy feeling, bilious spells, loss of appetite, and dizziness. SECOND: Partly digested food starts to decay forming GAS, bringing on sour stomach, acid indigestion, and heartburn, bloating you up until you sometimes gasp for breath. Then you can't eat. You can't sleep. Your stomach is sour. You feel tired out, grouchy, and miserable. Adlerika gives you the DOUBLE ACTION you need. This efficient carminative cathartic relieves that awful GAS almost at once. It usually clears the bowels in less than two bours. No waiting for overnight relief.
